Variable  (*Est £733)
		£17,920	£14,301 + V

### **How has the PE and Sport Premium grant made a difference to our school?**

- *Following careful consideration we now work closely with one of the leading PE and sports coaching companies, Total 14 Football & Sports Academy, to raise the level of achievement reached by pupils as well as working alongside teachers to increase their subject knowledge and confidence.*
- *Teachers will continue to benefit from numerous training on a range of sports helping them to develop their PE and sports skills which in return has enhanced and developed the children's learning in these sessions.*
- *Participation of sport during after school clubs has increased. Children continue to enjoy the opportunity to take part in various free after school clubs delivered by school staff. Participation has increased throughout the schools and Total 14 Football Academy also offer additional paid clubs as an option to parents.*
- *Daily lunchtime activities set up by Total 14 Football Academy and school playleaders has been extremely popular with the children helping to achieve more PE and sport participation. Activities vary offering a range of events for all abilities and ages.*
- *Across the federation we offer high quality swimming provision for all children with each class continuing to have their statutory 3 x hours of lessons per year.*
- *At Ipplepen School the children have attended Newton Abbot Leisure Centre Swimming Pool for their sessions and we also secured extra swimming slots/instructors at NALC reserved for any children that require additional support with their water confidence. The PE and Sport premium fund has helped finance transport costs to and from the swimming pool. This is supplemented by the school budget in order to give parents every opportunity for the children to take part swimming at no cost.*
- *Swimming results - By July 2019 93% of Year 6 children could swim competently, confidently and proficiently over a distance of at least 25 metres. 93% can also perform safe self-rescue in different water-based situations. 90% of children use a range of strokes effectively e.g. front crawl, backstroke and breaststroke.*
- *Children who have a particular sporting talent are offered extra opportunities to take part in training and competitions.*
- *Sporting equipment is being continually updated making sure that high quality equipment is available for all classes to use.*
- *Note: from April - July 2018 Saints South West continued to work with the children but from September 2018 we took advantage of the fresh ideas offered by Total 14 Football Academy.*
