

Week Beginning 26th April 2021

This week we will be carrying out a pet survey with the children, the children will then draw their pet or if they do not have one – what they might like as a pet. We will then create a graph to show the different types and number of pets we have at home. If you have any photos that children can bring in of their pets to talk about to their friends that would be great.

We will continue to read a series of books about Hairy Maclary from Donaldson's Dairy with his friends and the mischief they get into.

We will start to create the different characters from the stories to produce a display board.

We have some temporary Saplings pets at the moment
A pot of tiny caterpillars that we are caring for. We will be observing them every day for children to experience their change and development.

We have received Bookstart Treasure Packs pack from Booktrust to give out but only for children that are eligible. Some children may have received them last year but also some children may not be old enough this time.

Next Monday 3rd May is a Bank Holiday so Saplings will be closed.
