

Week Beginning 13th September 2021

We welcome all the children to the new academic year we have 16 new children starting with us this term. Our focus is settling new and returning children, familiarising them with us, each other, the setting and our routines.

We start the day with a large range of activities both independent and adult led. We gather at approximately 10.00 for daily exercise followed by a group time supporting speaking and listening skills by reading stories, singing songs, celebrating birthdays and news about events in their lives.

We love to hear about and celebrate children's achievements outside the setting. We will be provide you with blank WOW slips for you take home. The children can return them to inform us of any moments that you consider an achievement that they would like to share with us.

We then all sit for a drink and snack with an adult at each table again facilitating time to talk. Children can then choose to play on bikes/scooters in the large play area. We then gather at 12.00 for another story/singing session before we sit for lunch. The children have a short rest time watching a DVD then its play and activities until we tidy up, have a drink and fruit snack then the children look at books until collected.

This week the children will have the opportunity to create a collage figure of themselves adding facial details supporting them to talk about themselves.

Our role play area is currently a Baby Clinic and we would love a photo of when they were babies and any details of weight and length.

Many thanks.
