

## Week Beginning 27<sup>th</sup> September 2021

Thank you so much for your support by buying our cakes last week. We shall give the total raised next week.

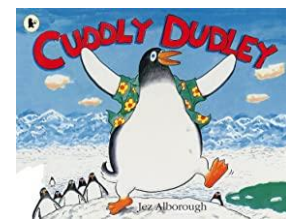

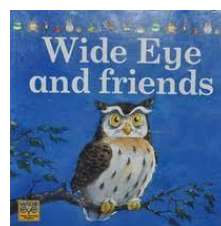

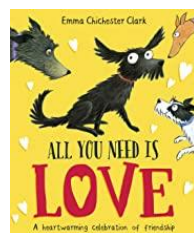

This week the role play area will transform in to a shoe shop providing opportunity for interactive play, still continuing with the focus of measurement and number recognition. We shall be drawing around the children's feet and creating a size wall chart.

We are challenging the children to find numbers in their environment, if they identify one please could you take a photo of them with it and send it in to us for our maths display board.

Our new children are becoming familiar with the adults and the setting. It has been challenging for some due to Covid restrictions, meaning they have missed an amount of social interaction. Do speak with us if your child is struggling and we will work together to support them.

We are encouraging the children to identify a friend and what are the attributes needed to be good friend and a nice person.

Last week an email was sent to you regarding any increase of sessions.

Please reply by this Wednesday. Thank you.

Invoices have been sent out for September sessions and the payment item is now appearing on Parentpay, Saplings Pre-School. Thank you

Next week it will be our Early Years HeadCount Week.

Look out for an email from Saplings admin team, please reply and confirm the hours that funded children are with us to enable us to receive the funding from Devon County Council. Many thanks.
