

## Week Beginning 22<sup>nd</sup> November 2021

The children are very engaged with our recycling theme. We are all amazed at the amount of recycling we have gathered just from our lunch boxes.

We had planned to take the different types of recycling to The Hub but unfortunately there is scaffolding around the church for their refurbishment and not safe for us to take a large group of children. Please do take the children to the Methodist Church yourselves if you get a chance as there is a great deal of recycling happening. They are collecting all manner of items not collected by the council.

Please see attached flyer and help the children to be 'Eco Hero's.'

This week we will also be looking at how dangerous leaving rubbish around is to the wild life. We have managed to borrow some equipment and shall be going on litter picking walks around our own playground and the park to clean up our environment.

Mrs Heathman is out on Tuesday and Wednesday but you are left in the very capable hands of the rest of the Saplings crew.

## **IPPLEPEN COMMUNITY HUB RECYCLING**

Our recycling will be done in conjunction with Terracycle, an innovative recycling company that has become a global leader in recycling typically hard-to-recycle waste. You can find out the varied ways the different types of collected waste are recycled and how the schemes work by visiting their website - <https://www.terracycle.com/en-GB>.

When you use the Hub facility please do take the trouble to separate your waste correctly and ensure it is clean with no surplus product. The facility is managed by volunteers who should not be expected to handle dirty waste, neither should they be expected to sort it for you. If the facility is abused it will end. Some of the schemes are a bit complicated in what they can and can't accept but this is laid down by the companies who sponsor the schemes so please don't blame us!

We have the following schemes :-

### **CRISP PACKETS**

Any brand of crisp packet

### **MEDICINE BLISTER PACKETS**

Any brand of empty medicine blister packets.

### **PLASTIC RING CARRIERS**

All flexible plastic ring carriers used to hold cans
