

Week Beginning 17th January 2022

At the children's request, the building site will stay for another week but we will move it out into playground as the weather is settled and dry.

We have been kindly donated some cube cardboard boxes and we hope to create an igloo. The children will be experimenting with ice cubes.

We will talk about animals and people that live in very cold climates. Last week when we were preparing for a walk around the park to look for winter, there was quite a kerfuffle in the cloakroom finding and getting 26 children's wellies on! We plan to purchase a portable wellie rack that holds at least 30 and store under the canopy. This will support children with their independence and hopefully it will arrive soon. Also, please could we ask that the children's boots are named. Many thanks.

The daily toothbrushing routine has worked out well.

We are very pleased.

This is our headcount week. Please look out for an email from Caroline for you to confirm your children's funded hours in order for us to claim their funding
