

Year Three Summer Term 2022

Here is our topic for this half term. Please use it to support your children's learning. They are welcome to bring things into class that are related to our topic and if any adults would like partake in any way, please see your child's class teacher.

As Artists we will:

- Learn about the primary and secondary colours
- Use paint to make a colour wheel.
- Create a background using a wash.
- Make a translucent stain glass window.
- Create their own water-colour painting

As Linguists we will:

- Have weekly spelling lessons, learning spelling rules and patterns.

As Citizens we will:

- Learn about relationship on a personal level all the way to Global Citizenship.

As Technologists we will:

- Complete research on how cats-eyes work.
- Design and make a reflector to show how light travels and reflects.
- Evaluate our designs and say how they could be improved next time.

The Big Question:

How far can you throw your shadow?

As Computer technicians we will:

- Learn about branching databases
- Evaluate and find out about Simulations.
- Take pictures using reflection tricks.

As Musicians we will:

- Compose, appraise and perform music using a range of instruments.

As Athletes we will:

- Take part in outdoor P.E sessions every week.

As Scientists we will:

- Investigate how a shadow is formed and how light travels.
- Learn about a variety of light sources and the important role the sun plays in our lives.
- Complete a 'fair' investigation to find out "How far you can throw your shadow?"
- Make predictions and record results in a systematic way.
- Learn key vocabulary, including opaque, transparent and translucent and say what is different.
